MEDDAC

BAYNE-JONES ARMY COMMUNITY HOSPITAL

❖ **Walk-In flu shot clinic**

BJACH Immunization Clinic, 2nd floor, Entrance B, Monday-Thursday, 0800-1100 and 1300-1330, Friday, 0800-1100. Immunize your Family against the flu before the holidays. Last week of December to about the second week in February is the time with the most flu cases nationwide. Flu vaccine does not cause the flu. Very mild flu-like symptoms after vaccination can mean that your body is responding to the vaccination. If you actually get the flu soon after vaccination, you may have been exposed to flu before getting vaccinated or during the two-week period it takes the body to gain protection from getting the vaccination. People with the flu may be able to infect others from one day before getting sick to and up 5 to 7 days after.

❖ **6 January - Change of Responsibility Ceremony**

1000, BJACH grounds adjacent to Entrance A. CSM Mark Bivins, outgoing; CSM Roderick Taylor, incoming CSM.

POC: (337) 531-3111

MEDDAC

BAYNE-JONES ARMY COMMUNITY HOSPITAL

- ❖ **21 January - 3rd Annual Health & Wellness Fair**
Start of the New Year Right, Main Post Exchange Mall
- ❖ **Monthly Training Closure**
BJACH will be closed until 1300 the third Thursday of each month for training. The next training date is 15 December. This includes all clinics, Outpatient Pharmacy, lab, radiology etc. BJACH dining facility will not be open for breakfast on training days, but will open at 1100 for lunch. Entrance B, 2nd floor, will remain locked until 1245. If you must enter the hospital, you must use Entrance A.
- ❖ **16 December Holiday Parties – Half-day closure**
All BJACH clinics, lab, radiology and the Outpatient Pharmacy will close at 1300 for the staff holiday gatherings. The ER and wards will be open 24/7.

DPW - Forestry

Example Criteria for Moen-Holmlund Block of Housing

- Prescribed burn conducted during school hours when possible
- Three to five days after rain
- Winds from the East, Southeast, or South at 5 to 15 mph.
- Humidity at 30% – 50%.
- Temperature less than 80 degrees.
- Fine fuel moisture above 7%.

POC: Mark Luttrell, Forester, (337) 531-6174

UNCLASSIFIED

100030Nov16

DPW - Forestry

Day of Burn

- 0630 – Check fire weather conditions online from the National Weather Service office in Lake Charles to determine location of burn.
- 0700 – Pre-work conference meeting with forestry personnel.
- 0730 – Equipment and communication check.
- 0845 – Make notifications to on and off post agencies.
- 0900 – Begin recon of prescribed burn area.
- 0915 – Placement of smoke signs.
- 0930 – Coordinate with PMO and Fire Department.
- 1000-1400 – The area is ignited, patrolled and secured in short increments along the burn boundary to control fire intensity and direction of spread. This process enables strategic positioning of resources as needed to prevent the spread of fire from escaping burn unit and to protect structures close to prescribed burn area. Lunch is on the go and in the field.
- 1400 – Shut down ignition.
- 1430 – After completion of final patrol and areas are determined to be secure, PMO and the Fire Department are released.

Mobile Notifier App: Active (2)

Getting Started: Click on the Purple Globe located on your desktop system typically located in the bottom right corner.

Registering: Select Access Self Service, once you select this site, you will be asked to fill in your information (first and last name, hierarchy). Hierarchy is the organization assigned to. Select your hierarchy. If you do not see your unit/agency, select JRTC and Fort Polk or HQ USA Garrison, Fort Polk. Click save, this will return you to the My Info page.

Parish of Residence: Next, select Parish of Residence and click save.

Select Devices: Fill in Numbers, enter work number and personal e-mail (this is where you can add multiple cell numbers, such as your spouse) click save.

Select Locations: Select Location Tab, follow the steps for entering the information on slide. Click edit, then enter the street address. Click Hybrid and the map changes to a satellite view, which is easier to see. If the Icon does not appear on the location you entered, simply drag the icon to the desired location., click save. Next enter your work location, then save.

Integrated Public Alert Warning System (IPAWS)

JRTC and Fort Polk now have the ability to notify the public using the Integrated Public Alert and Warning System (IPAWS). The purpose of IPAWS is to expand the existing Mass Warning Notification System capabilities. IPAWS provides the capability to reach the military and civilian population on and in the immediate surrounding area using the emergency Alert System (EAS), Wireless Emergency Alerts (WEA), the National Oceanic and Atmospheric Administration (NOAA) weather radio, and other Public Alerting Systems from a single interface. We have an obligation to our Soldiers and Families to provide seamless protection and safety services alongside our civil counterparts. Although it is not possible to validate 100% notification to total installation populations of an impending or actual incident, IPAWS together with other MWNS capabilities greatly enhances the potential to do so.

Fort Polk will use the WEA capability targeting specific geographic locations in order to reach the installation's population to include training areas.

The main content area features a large blue banner with the text: "The Leesville Police Department is committed to continued law enforcement to the citizens of the Leesville community. The professionals within the Leesville Police Department are dedicated to maintaining law and order at all times within its jurisdiction. Officers of the Leesville Police Department perform their duties with Honor, Integrity, and Loyalty at all times." Below the banner is a sign-up form for alerts from the Leesville City Police and other public safety agencies. The form includes fields for Mobile #, Email, and Zip Code, and a checkbox for accepting terms and conditions. A "Sign Up!" button is at the bottom of the form. To the right of the form is a small image of the police department's logo. At the bottom of the page, there is a "Follow Us On:" section with a Facebook icon.

LA-SAFE - “SEE SOMETHING SEND SOMETHING” MOBILE APPLICATION FACT SHEET

- The free app is a nationwide suspicious activity reporting (SAR) tool for citizens to help in the fight against terrorism and criminal activity but not to replace 911 for emergency situations.
- The system connects concerned citizens, first responders and law enforcement to key intelligence centers including LA-SAFE.
- The system routes geo-tagged suspicious activity reports and location-based messages to intelligence centers providing intel analysts the ability to receive, sort, search and analyze inbound SAR's.
- The free smartphone application allows suspicious activity to be captured as a **photo** and as **written text** and sent directly to LA-SAFE where the tips and information can be evaluated and then forwarded to law enforcement across the state as needed.
- The application can be downloaded for iPhone and Android phone users, as well as iPad users, and is provided by My Mobile Witness.
- For further information please visit <http://www.mymobilewitness.com/consumer-services.php>.
- To download the free application please visit the itunes store or google play store.
